BACKGROUND: The Phoenix Program is an adaptive ski program, which offers ski instruction and guidance to individuals with special needs and unique challenges: mental or physical. Started in 1996 with three students, three instructors and a lot of enthusiasm the program has continued to grow and evolve. Staffed with more instructors and volunteers, the Phoenix program enrolls students with mental, physical, and emotional challenges with each student receiving a customized program to fit their individual needs. The latest high-tech adaptive ski equipment is available to accommodate sit-skiers, four track skiers, blind skiers and most other adaptive skiers.
